Polycarbonate Barware

TABLE SERVICE

Barware mimics the look, weight, and clarity of glass with durable Polycarbonate. The smooth, seamless design adds style to casual dining, outdoor events, and poolside service. Large, heavy bases ensure stability. With this base design it allows for fast draining and complete drying. Safe for chilling or frosting without risk of thermal shock damage.

Polycarbonate Pitchers

TABLE SERVICE

Camwear® Pitchers are the lightweight, ultra-durable alternative to delicate glass. Built for easy handling, the crystal-clear, classic design perfectly serves beer, tea, water, soda and more. Recommended for bars, restaurants, and hotels, these pitchers are made with a special ice-control contoured lip and pour spout reduces spills.

Camliter® Beverage Decanters

TABLE SERVICE

Camwear Camliter Beverage Decanters provide upscale beverage service without the breakage and costs of fragile glass. Designed from shatter-proof, crystal-clear Camwear, these dispensers are ideal for restaurants, buffets, pools, and outdoor events that serve juice, wine, milk and more. Scratch and dent resistant, spill-proof, flip lids keep contents secure.

Polycarbonate GN Food Pans

FOOD STORAGE

Precisely designed by Gastronorm GN specifications, with a large radius bottom to reduce food waste.

UNBREAKABLE

The Polycarbonate Food Pan is virtually unbreakable for a lasting storage solution.

CLARITY

Check contents while reducing handling and cross contamination.

HOT or NOT

Withstands a wide range of temperatures: -40°C to 90°C (-40°F to 210°F)

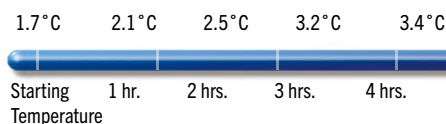

Cold Test

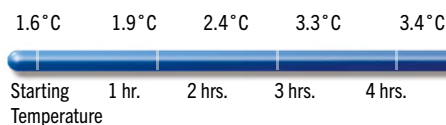

Tests prove Polycarbonate food pans keep products as cold as stainless steel. Stainless may feel colder, but as these test results demonstrate, Polycarbonate food pans keep products just as cold for just as long.

Ultra Pan Carrier® and Ultra Camcart® H-Series

INSULATED TRANSPORT

- The standard for all your banquet and catering needs, these units are the right choice for cost effective, energy efficient heated cabinets.
- Gentle, 65.6° – 73.9 °C heat provides the ideal temperature range for keeping food safe and hot while maintaining moisture and preventing further, unintended cooking.
- Lower price point than comparable metal cabinets.
- Lightweight yet durable, these units will not bend, dent, or chip like similar metal cabinets.

Hot Holding When Unplugged

Marine rail is designed for use during service, not transport.

- Non-electric UPC400, UPC800 and UPC1600 models may be retrofitted with heated door with minimal assembly.
- Foamed-in polyurethane insulation will hold temperature above 65°C for over 4 hours when used unplugged.

HOT HOLDING 65° – 74 °C

WARM UP TIME

FOODSAFETY

Camrack® 4-in-1 System

WAREWASHING

The Camrack® System will protect glassware and keep it clean until the next event, eliminating the need for rewashing.

1. Efficient Washing

Open inside compartments provide thorough circulation of water and cleaning solutions and promote quick and thorough drying. Long-lasting polypropylene Camracks are built to withstand chemicals and high temperatures up to 200 °F (93 °C).

2. Sanitary Storage

Closed outer walls keep fingers and contaminants out and reduce risk of breakage and injury. The Camrack cover and Camdolly make this system completely enclosed. Glassware stays clean when in storage, so operators will only have to wash items once.

3. Inventory Control

A variety of base rack colors help identify at a glance both contents and quantity per rack. Available in 10 colors.

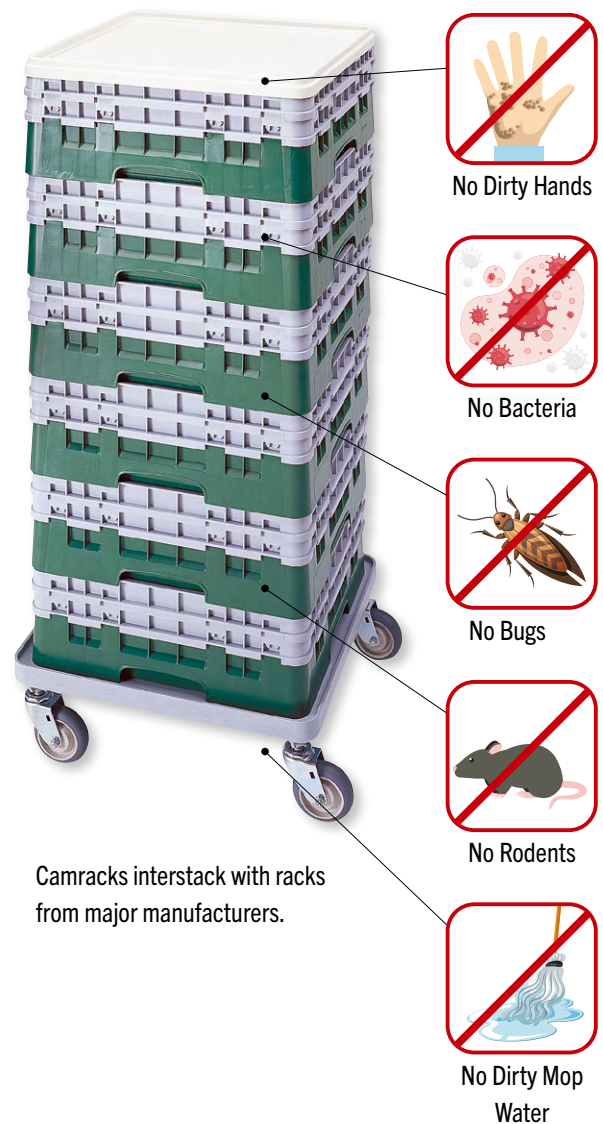

4. Safe, Sanitary Transportation

Camracks can be transported across large campuses or to off-site locations in one single unit. Easy to grip handles and smooth overlapping sides facilitate safe handling.

Camrack Cover Seals from the Top and CamdollyR Seals from the Bottom.

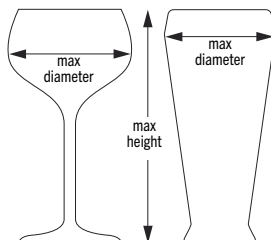

Camracks interstack with racks from major manufacturers.

Full Size Camracks® for Stemware & Tumblers

WAREWASHING

Available in 7 compartment sizes and up to 12 different heights, there is a Camrack that will fit any type of stemware or tumbler.

Choose the correct Camrack:

1. Measure the maximum diameter of the glass (stemware or tumbler) to determine the number of compartments.
2. Measure the maximum height of the glass (stemware or tumbler) to the top edge of the rim to determine the compartment height.

Cambro® Warranty

Cambro offers a 5-year pro-rated warranty against damage or manufacturer's defects found in excess to normal wear and tear on our Camtrays®, Camtread® trays and Dinnerware. Commercial Electrical Equipment models hold a 1-year warranty. Tongs, Camwear® Food Storage Pans, all high heat material products, Squares and Lids have a 2-year pro-rated warranty. All Camshelving® Series have a 1-year warranty on workmanship and a lifetime limited warranty against rust and corrosion, excluding mobile posts. For all other Cambro products, Cambro warrants to the original buyer a 3-year pro-rated warranty unless otherwise noted. The warranty applies on all Cambro products only when used under normal foodservice industry conditions.
